

Energy Policy

This Energy Policy has been compiled to set out **V&MP Crimp N Fix's** intentions and goals with respect to energy use and management. Its purpose is to help embed efficiency and environmental awareness into everyday business.

Declaration of Commitment

As part of our environmental strategy, **V&MP Crimp N Fix** are committed to responsible energy management and will practise energy efficiency throughout our premises, plant and equipment.

Objectives

The aim of our energy management system is to reduce energy wastage, improve working conditions, minimise environmental damage and raise awareness of sustainable energy issues.

V&MP Crimp N Fix will:

- Control energy consumption to avoid wasted expenses.
- Reduce the environmental impact of our energy consumption.
- Reduce our dependence on fossil fuels by investing in renewable energy.

Roles and Responsibilities

Our Energy Team is made up of:

- Gavin Porter - Director
- Adrian Griggs – for the sales department
- Sarah Cutt - for the sales and accounts departments
- Steve Kennington - for the warehousing, logistics and procurements functions

Our Energy Team will carry out the action plan and ensure resources are made available. They will also monitor the energy use of **V&MP Crimp N Fix** and feedback to the rest of the business.

Action Plan

During the coming year, the following energy management activities will be undertaken:

- Promote environmental issues, including energy management, on the agenda for management team meetings.
- Report changes in building use or occupancy times to ensure heating, ventilation, cooling and other services are provided efficiently
- Raise the awareness of employees to the importance of saving energy and build this into normal onboarding training.
